SSH Tunnelling to the Project VM

▸ replace 'X' with your group number (1-8)

▸ **on your laptop**

▸ ssh -L 410X0:cs410.cs.ualberta.ca:410X0 yourcsid@ohaton.cs.ualberta.ca

▸ enter password for your csid

▸ keep this session

▸ **open a new terminal**

▸ ssh -p 410X0 your-vm-username@localhost

▸ enter password for your vm

▸ **setup a tunnel for the web port (8080)**

▸ use port **410X8**

▸ if you are using django:

   ▸ ./manage.py runserver 0.0.0.0:8080

▸ access your project at http://localhost:410X8/

▸ **refer to the vm guide for more ports!**

▸
